Abedalrhman Jamal Omar

Full Stack .NET Developer

Detail-oriented Full Stack Developer with hands-on experience building enterprise-grade web applications using ASP.NET Core and React. Proven ability to deliver end-to-end solutions — from designing RESTful APIs and relational database schemas to crafting responsive, accessible front-end interfaces. Background in regulated manufacturing environments cultivated a disciplined, quality-first engineering mindset.

Ramallah, Palestine

CORE SKILLS

- C# / .NET Core
- ASP.NET Core / Web API
- Entity Framework Core
- React / TypeScript
- SQL / PostgreSQL
- REST API Design
- SignalR / Real-time
- Git / CI-CD

TECHNOLOGIES

C# · .NET 8 · EF Core · React 19 · TypeScript · Tailwind · PostgreSQL · SignalR · JWT · Zustand · Vite · Docker · Swagger · Serilog · Radix UI · Stripe/Lahza

LANGUAGES

Arabic	Native
English	Professional

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Attention to Detail
- Self-Motivated Learner
- Process Optimization

PROFESSIONAL EXPERIENCE

Full Stack .NET Developer (Graduation Capstone)
2025 – Present

AcademIX — Educational Web Platform

- Architected and developed a full-stack LMS using ASP.NET Core 8 Web API and React 19 with TypeScript, serving 5 distinct user roles (Student, Teacher, Admin, Accountant, Secretary).
- Designed and implemented 25+ RESTful API endpoints with Clean Architecture, including JWT authentication, role-based access control, and API versioning.
- Built a real-time messaging system using Microsoft SignalR with conversation management, approval workflows, and user moderation features.
- Integrated Lahza payment gateway for course purchases and subscription billing, including webhook handling and discount/coupon engine.
- Developed an AI-powered recommendation engine using hybrid collaborative and content-based filtering for personalized course suggestions.
- Implemented advanced analytics with at-risk student detection, engagement scoring, and CSV export capabilities.
- Engineered a custom theming engine with 18 built-in themes using CSS variables and Zustand state management.

Process Automation & Quality Assurance Technician
2021 – 2025

Birzeit Pharmaceutical Company — Palestine

- Operated and monitored automated production systems with strict quality standards (100% accuracy tolerance), developing a rigorous approach to error-free deliverables.
- Applied systematic troubleshooting and root-cause analysis to resolve production-line issues, reducing downtime and improving throughput.
- Ensured compliance with Good Manufacturing Practices (GMP) and regulatory protocols — transferable discipline to code review, testing, and CI/CD practices.
- Documented and optimized workflow processes, contributing to continuous improvement initiatives across the production floor.

EDUCATION

Bachelor of Applied Computing

Palestine Technical University – Kadoorie (PTUK) | 2021 – 2025

Multidisciplinary program in Computer Science & Computer Engineering. Coursework in software engineering, databases, networking, and quality assurance.

CERTIFICATIONS

ASP.NET Core — Al-Raja International, 2025

ASP.NET MVC — Al-Raja International, 2024

QA Software Automation — Al-Raja International, 2023

QA Software Testing — Al-Raja International, 2022

Programming & Data Science Internship — Al-Raja International, 2025

Certificate of Employment — Birzeit Pharma, 2021–2025
